

73 3111

Xp³ MULTIPURPOSE PENETRATING OIL

Uniquely formulated penetrating oil designed to displace water, remove rust and lubricate metal surfaces.

Once applied will leave a fine long chain polymer film to protect metal surfaces from rust.

CHARACTERISTICS:

- Contains no solids.
- Will soften residual lubricant deposits.
- An efficient EP lubricant.
- Reduces energy consumption by reducing friction on moving parts.
- Water displacing formulation.
- Excellent salt water resistance.
- Compatible with mineral oils and most synthetic base stocks.
- High chemical stability.
- Excellent low temperature properties.
- High dielectric strength.

APPLICATION:

Can be applied by spray, brush or dip method.

TECHNICAL DATA:

Test	73 3111
Flashpoint with solvent	61°C
Flashpoint without solvent	200° C
Density	0.89 g/l
% volatility	>45%
Boiling point	180° C
Pour point	60° C
pH	6 - 7
Dielectric force ASTM D-877	➤ 25kV
